

**Press release no. 1 of 02/06/2024**

Subject: **Regulatory clarifications for the 2024 Easykart Trophy**

With reference to the new sporting and technical regulations of the 2024 Easykart Trophy, below are some clarifications:

- **NEW TYRES KGP – cod. ETS.009.ST**

Starting from the collective tests of 17/18 February 2024, the new KGP tires will be available and will be used for the BMB CHALLENGE and TM KART CHALLENGE categories for all the official events for the year 2024 and following.

The new compound guarantees excellent performance with improved durability in terms of consumption and reliability compared to the previous model.

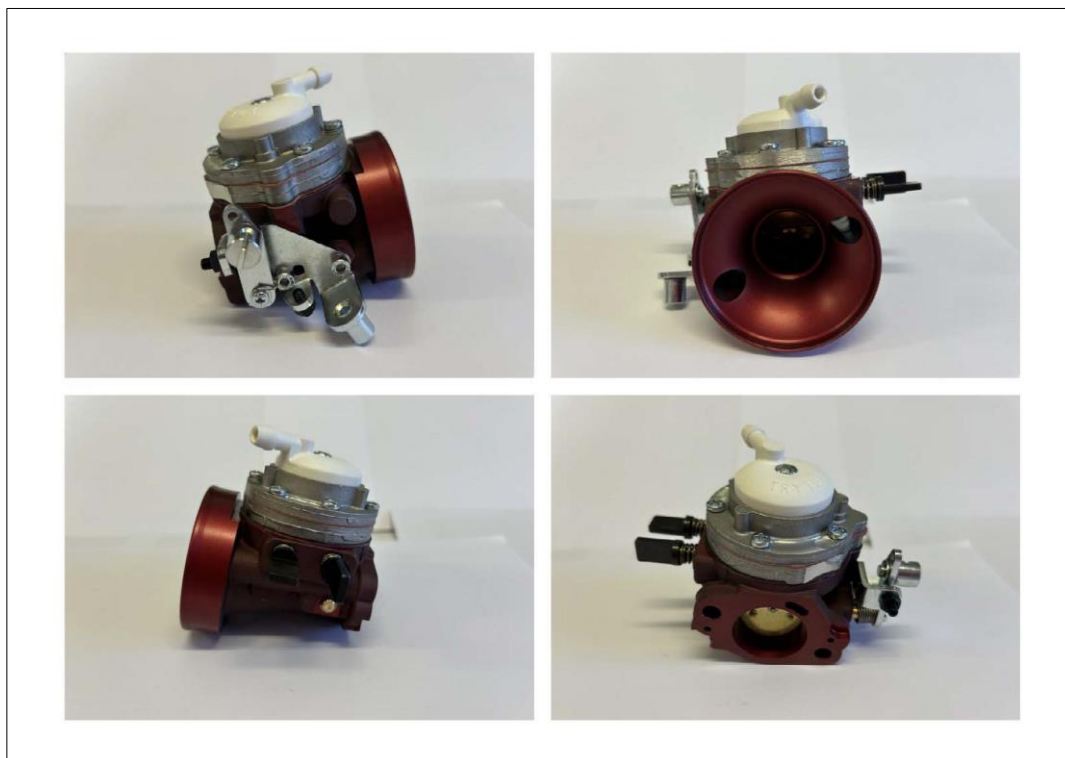

- **TRYTON HB27 CARBURETOR**

It should be noted that for the EASYKART 125 and BMB CHALLENGE categories it will be possible to use the standard Tryton HB-27 carburetors (without anodizing) and the red anodized ones for the year 2024 as per the following photos:

Standard model (without anodizing)

Red anodized model

- **TM KART Challenge category**

It should be noted that for anything not indicated in the official regulations of the Easykart Trophy, reference is made to the Karting Sports and Technical Sector regulations and to the currently valid FIA Karting KZ2 Regulations.

For further information and clarifications, send an email to [info@easykart.it](mailto:info@easykart.it).
